

DESCRIPTION

Noise Barrier 10T

Flexible transparent barrier materials offer significant noise reduction while allowing for visibility and easy Access.

Also utilized to reduce heat and cold loss between areas.

APPLICATIONS

- Sheet material is often utilized as a view window.
- CV strip doors are often incorporated into Acoustical Curtain Enclosures for easy Access.
- Mounting angles and hardware are also available.

Product Data:

Description	Transparent
Nominal thickness	0.160
Nom. Weight	1.0
Roll size	16" W x 100' L & 48" W x 60' L
Additional Details	Mounting Hardware details See bulletin SS102

ACOUSTICAL PERFORMANCE:

SOUND TRANSMISSION LOSS (STC)

Frequency	OCTAVE BAND FREQUENCIES (Hz)						STC
	125	250	500	1000	2000	4000	
Noise Barrier 10T	13	17	22	26	32	37	26

Per ASTM E 90 (90A)
